

equipment

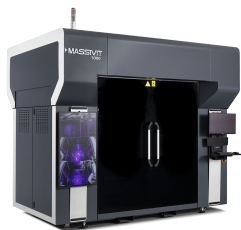

how we get it done

Our extensive inventory of in-house equipment allows us to manage every aspect of production under one roof, ensuring quality, efficiency, and control at every stage. From advanced CNC machines and large-format 3D printers to millwork, graphics, laser welders, and finishing equipment, our fully equipped facility is built to handle projects of any scale or complexity. This end-to-end capability enables faster turnaround times, quality control and seamless execution from concept to completion.

Massivit 5000

Large Scale 3D
Printer

Gel Dispensing Printing

Dual Print Heads —
Ability to Print Different
Models Simultaneously

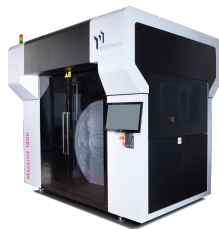

High-Speed Prints

Large Print Volume

Photopolymer
Gel-Based Materials
That Cure Instantly

Automated

Build Volume:
57" x 43.7" x 70.8"

Massivit 1800

Large Scale 3D
Printer

Gel Dispensing Printing

Dual Printheads

High-Speed
Printing

Large Print Volume

Versatile Material
Options

Remote Monitoring

Build Volume:
57" x 44" x 70"

Mingoa MD-600 Pro

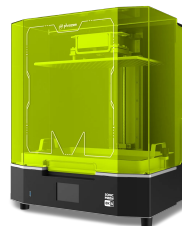

Direct Extrusion 3D Printer

Large Build Volume

Flexible Filaments

Perfect for
Prototypes, Models,
Patterns, Molds and
Sculptures

Build Volume:
23.6" x 23.6" x 23.6"

Phrozen Sonic Mega 8K

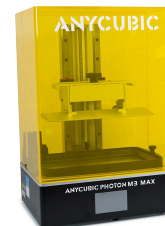

Large Format Resin 3D Printer

8K Printing for
Detailed Models

Large Printing
Volume

Capable of Printing
Heavy Objects

Build Volume:
13" x 7.3" x 15.7"

Anycubic Photon M3 Max

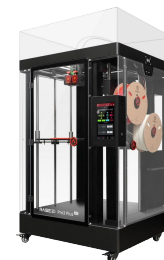

Large Format Resin 3D Printer

Perfect for
Large Models

Precision Ball
Screw Mechanism

High Quality
Printing

Build Volume:
11.7" x 6.5" x 11.8"

Raise 3D Pro3 Plus

Dual Extrusion 3D Printer

Hyper-Speed
Printing

Hyper Core
Filament

Best for Prototypes,
Parts, Sculptures,
Models, etc.

Build Volume:
11.8" x 11.8" x 23.8"

Bambu Lab X1-Carbon

Multi-Material 3D Printer

Multi-Color Printing
High Speed

Perfect for Small
Prototypes, Models,
Patterns, Molds and
Sculptures

Build Volume:
10" x 10" x 10"

Bambu Lab H2D

Multi-Material 3D Printer

Dual Nozzle
Multi-Color Printing

High Speed

Perfect for Small
Prototypes, Models,
Patterns, Molds and
Sculptures

Build Volume:
13.8" x 12.6" x 12.8"

Airwolf 3D ENVO 22

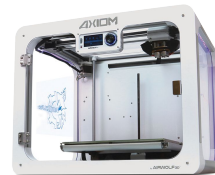

Extra Large 3D Printer

Oversized Build
Environment

Precise Printing

Prints over 40
materials ranging
from PLA and ABS
to exotic materials

Build Volume:
12" x 12" x 22.75"

Airwolf 3D Axiom

Multi-Material 3D Printer

Enclosed Build
Chamber

Perfect for Smaller
Prototypes, Models,
Patterns, Molds and
Sculptures

Build Volume:
12.5" x 8" x 10"

FLSUN S1 Pro

Multi-Material 3D Printer

Prints
High-Temperature
Materials

Epic Speed

Perfect for Smaller
Prototypes, Models,
Patterns, Molds and
Sculptures

Build Volume:
12.6" x 15" x 16.9"

Mimaki
UCJV300-160
UV-LED Printer

UV-LED Printer

Ability to
Print-and-Cut

5 Layer Print
Functions

Flexible UV LED Inks

Wide Range of Media

Eco-Friendly Inks

Printing Width:
64" wide

Mimaki
JFX500-2131

**Large Format
Flatbed UV Printer**

High Quality
Output

High Speed

Large Print Area

Prints Rigid
Substrates, Acrylics,
Polycarbonates,
Glass, etc.

Printing Area:
82.7" x 122"

Mimaki
JFX200-2513

Mimaki
JFX200-2513 EX

**Large Format
Flatbed UV Printer**

Eco-Friendly ink

Prints on thicker
substrates and
irregularly-shaped
media

Printing Area:
48" x 96"

Colorado
1650 64" UVGel

**Large Format
Roll Printer**

HYPER FAST

UV Gel inks

Flexible and
Stretchable

Prints both Matte
and Gloss

Prints on Porous and
Uncoated Materials

Printing Width:
64" wide

Graphtec
FC9000-160

**Roll-Fed Cutting
Plotter**

High-Precision

Both Printed and
Unprinted Materials

High Cutting Quality
for Thin and Thick
Materials

Cutting Width:
64" wide

Mimaki
LA-160W
Laminator

**Heat Assisted
Laminator**

Superior Finish

Fast Throughput
Speed

Laminating Width:
62.2" wide

ShopSabre Pro 510 CNC Router

Heavy Duty CNC Router

Rapid Speed
Precision Cutting
Large work area
Multiple Materials

Cutting Area:
72" x 125" x 12"

ShopSabre IS 510 CNC Router

Heavy Duty CNC Router

Rapid Speed
High Accuracy
Large work area
Versatility

Cutting Area:
75" x 125" x 12"

ShopSabre Shopmaster CNC Plasma

Heavy Duty CNC Plasma Cutter

State-of-the-Art
Technology
Rapid Speed
High Accuracy
Large work area
Versatility

Cutting Area:
64" x 121"

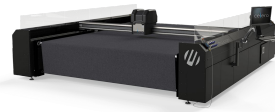

ShopSabre FiberSabre 2kW Fiber Laser

Heavy Duty Fiber Laser

Rapid Speed
Precision Cutting
Cuts a Wide Range
of Metals, Steel,
Stainless, Aluminum,
Copper and Brass

Cutting Area:
49" x 97"

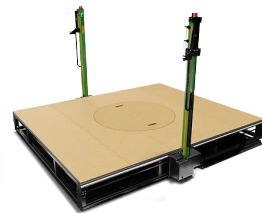

Multicam Celero 7 Router & Knife

Digital Finishing Cutting System

Hyper Fast Cutting
Speeds
Pristine Cut Quality
Perfect for
Cardboard, Fabric,
Foamcore, Plastic,
Acrylic, Sintra, PVC,
Vinyl, Wood and So
Much More

Cutting Bed Size:
78" x 127"

Frog Wire 5-Axis CNC Hot Wire Foam Cutter

Hot Wire Foam Cutter

Detailed Milling
2D, 3D, Flat Cuts and
Rotational Parts
Fast Cutting
Detailed and
Intricate

Cutting Area:
99" x 97" x 52"

MCT **VersaTech 2** **Digital Cutter**

Fabric Laser Cutter

Design to Print
to Cut

Various Substrates

Rigid and Semi-rigid
Materials

Roll or Sheet
Capabilities

Cutting Bed Size:
126" x 63"

Colex **Sharpcut SX** **Digital Cutter**

Digital Flatbed Cutter

Fast Cutting Speeds

Versatile

Fabrics/Textiles
Cutting

Perfect for Graphics,
Displays, POP's ,
Packaging and
So Much More

Cutting Bed Size:
120" x 60"

DGEN **Teleios Grande H6**

Direct-to-Textile Printer

High Speed

High 1800dpi
Resolution

Dye-Sublimation

6-Color System

Wide Range
of Fabric
Compatibility

Printing Width:
130" wide

DGEN **Teleios Black** **2500**

Direct-to-Textile Printer

High Speed

High 1440dpi
Resolution

4-Color System

Wide Range
of Fabric
Compatibility

Printing Width:
104" wide

Matic Type **827 Sensitive M-Type** **Durkopp Adler**

Industrial Sewing Machine

For Medium to
Heavy Applications

SEG (Silicone
Edging Graphics)
Capabilities

In-House Sewn
Banners, Displays
and Other Fabric
Graphics

JUKI **DDL-8700**

Industrial Lockstitch Sewing Machine

Medium Applications

SEG (Silicone Edging
Graphics) Capabilities

In-House Sewn
Banners, Displays and
Other Fabric Graphics

**Apex
EZ Sander**

**Industrial Wide
Belt Sander**

Wide belt sanding
for woodworking

Sands from
Top or Bottom

Multiple Heads

Size: 36" wide part
capacity

**LaserOnly
Handheld Laser
CW 2000W**

4-in-1 Laser

Welding

Cleaning

Cutting

Weld Cleaning

Rust Removal

Multi-Purpose Tool

**Universal
PLS 6.75
Laser System**

Laser Cutter

Material up to
9" thick

Capable of Cutting,
Marking, Engraving,
and Photo Imaging

Multiple Materials
from Composites,
Metals, Glass, Paper,
Textiles and More

Cutting Area:
32" x 18" x 9"

**Graco
Reactor 3 E-XP1
Proportioner**

**Polyurea Airless
Spraying System**

Capable of Applying
Industrial, Polyurea
and Protective
Coatings

**Kuka
7-Axis
Robot Arm**

Multi Task Unit

Capable of Carving,
3D Printing,
Assembly, Cutting,
Additive
Manufacturing,
Machining and More
